Dear Sir;

Please be so kind as to inform me, as to the manner in which to make an application for a position for a Lady in the U. S. Mint, at Philadelphia, and whether applicant in order to secure same has to fill out a printed Blank application for same.

If this is the method that you use please be kind enough to send one of said printed applications to me for which you will find a postal stamp enclosed.

Also please inform me whether applicant would require a Bondsman, and if so what amount would be required, and if applicant was satisfactorily how long would it be, before she secured said position.

By furnishing me with this advice you will greatly oblige,

Yours respectfully;
